

A unique ABS polymer resin bracket kit has been developed to mount Moniteur VPTs to actuators with the NAMUR standard accessory mounting configuration. The kit offers many advantages over conventional plated steel bracket kits:

- Corrosion resistance
- Faster mounting
- Dual O-rings seal the actuator shaft / VPT shaft area from the outside environment
- Standard stainless steel mounting hardware

The bracket is designed to fit Moniteur **Sentinel**, **Watchman**, **Survivor**, **Survivor II** and **Indicateur** product series when fitted with the NAMUR direct interface shaft (code 5). (eg. RMYS-5220)
Listed below are compatible actuators.
